

Waleed Katoor

Executive Longevity · Digital Growth Strategy

ما بتشتريها. بتكسبها.

You cannot buy your health. You will earn it." — Waleed Katoor"

One connected system that turns attention into booked calls, calls into clients, and clients into proof.

Prepared by Vida Al · Steven Ayman · Mario Wagyh Gomaa · Sameh Usama Shukry · September 2026

The plan on one page

Waleed went from roughly 125 kg to athletic at 44 while running a director-level job and raising three daughters. He isn't selling fitness. He is **proof that a busy man can recover his health**.

Today that story doesn't turn into business: 1,209 posts, 1,232 followers, no website, no booking path, no client system. But the account is moving: the last 30 days ran at 1,023 median views against 827 before. **This is a build, not a rescue**.

Social Media

Creates demand: 4 Reels a week + a Saturday carousel, Arabic-first, him on camera

Website

Converts: one page, eight sections, a calendar wired into automation

CRM

Runs the coaching: dashboard, client profiles, progress, payments, voice notes

AI Automation

Removes the admin: nine client automations + a leads engine

Five decisions that shape everything

1	Proof, not coach He shares what worked on him and sends people to specialists for the details.
2	He speaks Reels where he talks earn nearly twice the views (1,622 vs 822) and 3× the likes.
3	Arabic first His growth audience thinks in Arabic. Captions burned into every video.
4	Client enters the data Forms and WhatsApp do the typing — not Waleed.
5	Channels before automation WhatsApp, Instagram and Facebook are set up properly first.

No website, no booking path

859

Median views

~0.70× his follower count

⚠ Creator account bio link points to one YouTube episode. Name field is English only – **no one searching in Arabic can find him.**

The finding that drives the content plan

	He speaks on camera	Montage over a track	Someone else's audio
Share of output	13%	72%	15%
Median views	1,622	822	683
Median likes	57	15	14
Zero-comment rate	9%	36%	46%

⊗ 87% of his production effort goes into the formats that perform worst.

What the data says to do

Content Pillars

Key Tactical Decisions

Post at 20:00 KSA

19:00–21:00 performs best. After midnight is the worst slot (334 median views).

60–120s length

Best engagement at 3.8%. Teaching Reels run 45–90s, nothing under 10s.

Friday & Tuesday anchor

Friday (1,163) and Tuesday (1,082) are anchors; Sunday (579) tested for 4 weeks.

5 targeted hashtags

Used on only 2 of 85 Reels. Five targeted tags per post from now on.

Brand foundation: executive longevity

Where he is now

A fitness creator competing with 25-year-old coaches on looks and volume.

Where he goes

Executive longevity. Health as the asset that protects the career, the marriage and the years ahead.

The enemy

The belief that success costs you your body, and that this is a fair, temporary price.

His role

Proof, not coach. "I am not a specialist. Go to a specialist for the details."

Positioning

For the Arab professional man past forty who has built everything except his health, Waleed Katoor is the proof that it is recoverable: a business director who went from 125 kg to athletic at 44 and explains exactly how, in the language his audience thinks in.

The brand line, in his words

ما فيك تشتري صحتك. رح تكسبها. ولما تكسبها، بتصير ملك الدنيا.

Who we talk to

PRIMARY AUDIENCE

"The 2AM email man"

- Men 38–55 in Riyadh, Jeddah, Dubai, Doha
- Director level or business owner, 90–130 kg
- Has started and quit three or more times
- Has money but no time, and stopped believing any plan fits his schedule
- Two to four children; a recent photo made him uncomfortable
- Consumes in Arabic

❏ Aim at one man: 42, 110 kg, works too much, two kids, tried three times and quit.

SECONDARY AUDIENCE

Their wives

Family content has a 1,913 median against 859 overall. Women share health content about their husbands.

EXPLICITLY NOT

Young men chasing aesthetics, competitive lifters, anyone who wants a fast transformation.

Voice and visual identity

Four voice traits, all from his own transcripts

Brotherly, not
authoritative

First person, "this is what I did"

Specific over
inspirational

125 kg, 44, 6:45am, the 4th-
day rule. No number, not
finished.

Arabic first, English
where it lands

He code-switches naturally

Never shames

He talks about his 125 kg self
with compassion

Steel #5E6B72

Secondary

The connected system

Each workstream matters because of what it hands to the next.

Week 1 channel build — before any automation

WhatsApp Business Cloud API with Meta-approved templates	Instagram Professional account linked to Meta Business Suite, Arabic name field, new bio, website link	Facebook Page With cross-posting enabled
Telegram Bot Private bot for Waleed	Domain & Tech SSL, analytics and Meta Pixel	

Website: one page, one job, book the call

Almost everyone arrives from the Instagram bio or a DM, on a phone, curious but not convinced. In about a minute the page has to prove the story is real, make him feel it was written for him, and put a calendar in front of him.

Format

Single scrolling page, Arabic-first with an English switch, mobile first

One Action

Every section leads to احجز مكالمة (book a call)

Connected

Calendar, forms and link tracking write into the CRM and trigger WhatsApp automation

The eight sections come straight from the strategy notes: **Hero** · **Proof** · **My Story** · **This page is for...** · **Protocol** · **How We Work** · **FAQ** · **Calendar**.

Sections 1–2: Hero and Proof

HERO · الفرق بين الاثنين

Before and After, Side by Side

The before and after side by side, 125 kg next to today. The proof goes first. One button, no second call to action. Captions carry numbers only: **125 kg**, **44**.

125KG

Starting Weight

20YRS

High-Pressure Career

PROOF · حقائق عنه

Credentials, Not Claims

- SQUATWOLF Athlete Ambassador
- Saudi Event Show 2026 Judge
- Years in the events industry
- 125 kg → athletic at 44
- Father of three daughters
- Podcast guest, soon host

44

Age, Fittest Ever

3

Daughters. Zero Excuses.

Sections 3–4: My Story and "This page is for..."

MY STORY · قصتي

Three Paragraphs, Three Numbers

The Before: The director at 125 kg — twenty years building a career in the events industry, long nights, constant travel, deadlines that never stopped. Good at the job and proud of it.

The Turning Point: The mirror, his daughter — a decision that some things were no longer up for negotiation: training, eating clean, 8–10K steps a day, sleep and recovery. No need to be perfect. Just keep showing up.

The System: Four days a week, the 4th-day rule, steps, protein, sleep. Early in the morning, before the day took over, with his wife beside him and his three daughters watching.

THIS PAGE IS FOR... · هاي الصفحة لمين؟

The Qualifier That Makes the Right Man Feel Seen

- 38 to 55 years old
- 90 to 130 kg, started and stopped more than once
- "No time" has become your default answer
- You've tried diets that felt like punishment

Not for you if...

- You're looking for a six-week shred or a magic pill
- You want to compete on stage
- You need someone to shout at you

Section 5: The Protocol

One system, built on the five non-negotiables that took him from 125 kg to athletic at 44. Adapted to your body, your schedule and your goals. A slogan and five pillars — **no details**. The detail is what clients pay for; the page only shows that a system exists and fits a busy week.

Training

Gym is a must. Skipping isn't in my dictionary.

Nutrition

Eating clean. I control what fuels me.

Movement

8,000–10,000 steps. No excuses.

Sleep

Sleep is part of the work.

Recovery

Recovery matters just as much.

 The offer: one-to-one and small-group coaching on health, nutrition habits and daily discipline for working men. A life-and-health system that fits around a real job.

Sections 6–7: How We Work and FAQ

HOW WE WORK · كيف نشتغل

01

Free Call on the Calendar

A free 30-minute conversation about where you are, where you want to be, and whether we're the right fit.

02

Registration Form on WhatsApp

A short form and a plan built around his schedule — food habits, history, lifestyle.

03

Weekly Check-In on WhatsApp

Weight, photo, training days, sleep, notes. Each step matches a real automated step.

04

Check-Ins and Adjust

Regular accountability and adjustments until the habits run on their own.

QUESTIONS · أسئلة

Five Questions, In His Voice

Do I need a gym?

Yes. The gym is non-negotiable — but the plan fits around your schedule, not the other way around.

How long does it take?

Real change takes months, not weeks. We build habits that last, not a 30-day sprint.

I travel a lot.

So do I. The protocol is built for travel — hotel gyms, airport meals, time zones.

Is any food banned?

No banned foods. Clean eating, not punishment. You'll learn to eat anywhere.

What does it cost?

We talk about it on the call. No "contact us for price" — that reads as expensive and evasive.

Section 8: The Calendar That Starts the Automation

An embedded booking calendar with only Waleed's available slots, in KSA time. Booking starts everything – no manual follow-up required.

- **Lead Created in CRM**
The lead record is created with the source post attached automatically.
- **WhatsApp Confirmation**
A confirmation goes out instantly in Arabic.
- **Reminders Sent**
24 hours and 1 hour before the call, automatically.
- **Pre-Call Form**
A short form arrives on WhatsApp so the call starts informed.
- **No-Show Recovery**
No-shows get one polite rebooking message.
- **Post-Call Tap**
After the call, Waleed taps "Client" or "Not now" and the next automation starts.

Built Mobile First

THREE RULES FOR THE WEBSITE

Technical Stack

- Arabic (RTL) and English language toggle
- Cal.com booking with webhooks into the CRM and WhatsApp
- Analytics, Meta Pixel and a tracked link per post
- Indexed under وليد كاتور
- Podcast embedded
- Privacy policy and a "not medical advice" note

No Testimonials Section, Yet

A thin results block damages trust faster than none. His own transformation is the case study until the two client cases are ready.

Show the Price or Book the Call

Never "contact us for price." To this man it reads as expensive and evasive.

Mobile First, Genuinely

Tested on a mid-range phone over mobile data: thumb-reachable buttons, Arabic text readable without zooming, a sticky booking button.

CRM: Coaching from a Phone, Without Typing

DESIGN PRINCIPLES

The client enters the data · one screen a day · voice over typing.

DASHBOARD · الرئيسية

- **Subscriptions:** active, ending within 14 days, expired, upgrade candidates
- **Follow-up:** needs follow-up today, no check-in this week, new InBody to review, AI drafts waiting
- **Clients:** search, new leads, booked calls
- **Headline numbers:** active clients, renewals, revenue, new leads

CUSTOMER PROFILE · ملف العميل

- Today's weight against starting weight at the top
- Photo, plan, status · WhatsApp, email, Instagram
- Start and renewal dates · weight chart, height, InBody history
- Weekly photo timeline · meal PDF · check-in log
- Transcribed voice notes · payments

REGISTRATION FORM

Allergies, diseases, medications, injuries, history and separate consents. Any declared condition raises a **medical flag**: no AI meal plan, doctor clearance first.

PAYMENTS AND RENEWALS · الدفعات والتجديد

Paid / due / overdue, full history, a renewal pipeline starting 14 days out.

NOTES REGISTER AND TELEGRAM

Voice notes auto-transcribed to the right client. A private Telegram bot answers questions and sends a morning digest. Health data handled under **Saudi PDPL**.

AI Automation: Nine Client Automations

A complete system for Waleed — Arabic-first, human in the loop for health and money, clean handover, within Meta's platform rules, and everything logged.

PRINCIPLES

Arabic-First Every message, every touchpoint in the client's language	Human in the Loop Health and money decisions always go through Waleed
Clean Handover Every action logged and handed off clearly	Platform Rules Within Meta's guidelines at every step

The Nine Automations

#	Automation	What Happens
1	Meal PDF Delivery	Approved PDF sent to the client on WhatsApp
2	InBody Tracking	AI reads the photo, saves weight, muscle, body fat, updates the graph
3	Monthly Report	A report per client sent to Waleed on the 1st
4	Weekly Reminder	«لا تنسى التشيك-إن تبعك اليوم»
5	Weekly Form Link	The check-in link each week, answers land in the profile
6	AI Plan Builder	Drafts meal and plan ideas; Waleed approves every one
7	Renewals	Renew or upgrade message 7 days before, one follow-up
8	Waleed's Assistant	Voice notes to the right client's CRM record; answers questions
9	Weekly Progress Photo	Added to the before/now timeline

The Leads Engine

How It Works

1. **Post + CTA:** e.g. اكتب «بروتوكول» بالكومنت وبيعتهك القاعدة كاملة
2. **Auto DM:** the promised resource + a website link unique to that person
3. **Click = lead:** the CRM registers his handle, the source post and the date
4. **Assistant:** answers repeat questions, qualifies, offers the calendar
5. **Booked or follow-up:** call booked, or queued for a human

Because every link is unique, we know **which post produced which client**, not only views.

❑ **Follow-up within the rules:** Meta limits business messages to a window after the person's last message, and WhatsApp needs opt-in. So follow-up moves to WhatsApp with consent, happens personally from the "Not now" list, or comes back through new content. No mass cold DMs.

Stack

n8n (self-hosted) · WhatsApp Cloud API · Meta Graph API · an Arabic-strong LLM · vision for InBody · Whisper-class transcription · Cal.com · Telegram Bot API · branded PDFs.

Rollout

Month 1 catch every lead · Month 2 run the clients · Month 3 the intelligence layer.

Social Media: The Weekly Rhythm

Every post at 20:00 KSA, on Instagram and Facebook

Friday Reel (anchor) · Saturday carousel · Sunday Reel (test slot) · Tuesday Reel · Wednesday Reel · Monday and Thursday Stories only (+ Q&A box on Thursday)

4 Reels + 1 carousel a week · about 16 + 4 a month · 2+ raw Stories a day

Five Content Pillars

1	The Road · الطريق The 125 kg story in unglamorous specifics 3/month
2	The Busy Man's Protocol · بروتوكول المشغول The actual system, 60–90s teaching 5/month
3	Myths · خرافات Myths taken apart, told as his stories 3/month
4	Why?! · إيش؟ Family as the reason, the pillar wives share 3/month
5	The Difference · الفرق Vlogs, events, work, SQUATWOLF 2/month

📌 Gym footage is not a pillar. It is background texture.

The Content Engine

25 Reel Ideas from the Strategy Notes

الصورة اللي خلتنني أبلش (the photo that made me start) · قاعدة اليوم الرابع (the 4th-day rule) · the cheat meal · لما بنتي طلبت تلعب معي وما قدرت · لما يصير عمري 65 بدي كون مثل عمرو دياب · يوم بحياتي.

Stories — Daily and Raw

- Food and weight
- The 6:45am gym
- Old Reel with a new comment
- Events and runs
- Podcast behind the scenes
- Q&A box
- Training while travelling

Production System

Batch Filming

One 90-minute weekly session, change T-shirts between takes → 6 Reels (4 published, 2 banked)

Better Editing

Burned-in Arabic captions, punch-in zooms, numbers in Ember

Hashtags

Exactly five per post, matched to the pillar

Caption Formula

Hook · the specific thing with a number · CTA keyword · one real question · five hashtags

⊗ **Stop immediately:** reposted voiceovers · silent gym montages · clips under 10 seconds · follow-for-follow.

Growth Plays

Aa

Two Client Cases

Hint → build evidence in the CRM → written consent → reveal.
Timing is driven by real results, not a date. Then the website's نتائج section goes live.

Borrowed Audiences

A SQUATWOLF feature or takeover · six podcast guest spots in six months · collabs with Riyadh gyms · joint content with his wife.

Podcast Host with Well-Known Guests

Successful people and the price their bodies paid. One episode a month; each yields 4–6 spoken Reels and a collab post.

Fix the Profile

Arabic name field · وليد كاتور 125 كيلو · new Arabic bio · website link · face-forward photo · pinned Reels · Highlights: قصتي · قبل وبعد · البروتوكول · خرافات · عائلتي

The Serialised Transformation · المسلسل

The Road pillar as a 12-episode weekly series. "تابعني تشوف الحلقة" becomes an honest reason to follow.

Roadmap: 90 Days, Then 12 Months

When	Social Media	Website + CRM	Automation
Week 1	Profile fixes, Insights baseline	Discovery, pricing decision, design	Channel build
Weeks 2–4	Full schedule live, series ep. 1	Website and CRM build, forms drafted	Comment-to-DM, tracked links, DM assistant
Month 2	First collab, podcast ep. 1	Launch , bio link switched, calendar live	WhatsApp assistant, booking flow, reminders, PDFs, renewals
Month 3	Review slots and pillars against data	Improvements; results section prepared	InBody reading, monthly report, AI plan builder

The 12-Month Ladder (a target, not a guarantee)

Months 1–2 will feel like nothing is happening. That is when most people quit, and it's the stretch that decides the outcome.

Measurement, Guardrails & Next Steps

Funnel We Report Monthly

Monthly report + 30-minute review: keep, change, stop.

Guardrails

The Medical Line

No medical claims, no supplement protocols, no calorie prescriptions. The back story is told as story only.

Client Data

Saudi PDPL, encrypted, access-limited.

His Dialect, Not Ours

Waleed reads every Arabic line aloud before it goes public.

Platform Rules

Meta-approved templates, opt-in, no mass unsolicited DMs.

Consent

Client photos published only with separate written permission, withdrawable.

Honest Numbers

Every public claim is true and checkable.

Decisions to Confirm Before Launch

1. Years in the events industry: 10 or 20?
2. His age on his first day back at the gym
3. Show the price on the website, or book a call?
4. The two client cases: who, and will they consent?
5. Can he film one 90-minute session every week?
6. Keep the Sunday slot for four weeks?
7. Weekly link: check-in form (recommended) or full registration?
8. His assistant on Telegram, WhatsApp, or both?
9. Do clients have access to InBody scans?
10. Myth M2: «الكرش وراثة»?
11. Podcast name, first guests, recording location
12. Access: Instagram Insights, Meta Business Suite, calendar

❑ **Next step:** answer these in week 1, grant access, and book the first filming session.

ولما تكسبها، بتصير ملك الدنيا.
